ARMORED CABLING

SPECIFICATIONS

Cable Jacket

- Low-temperature flexibility polyurethane jacket
- Double extruded brass armored feature for UV stabilized
- Cut and abrasion resistant
- Gray finish
- IP68

Armor

- 0.015" spiral-wound brass embedded in jacket

Conductor Construction

- Four 20 AWG insulated copper conductors (Yellow, Red, Green, Black)
- 1000 lb straight-laid aramid fibers core member
- Aluminum shielding

Cable Diameter

- Outer diameter = 0.272 in +/- 0.005 (6.91 mm)

Tensile Strength

- 250 lb (113.4 kg)

Cable Weight

- 43.98 lbs per 1000 ft (64.446 kg/km)
